

UNIBAIL-RODAMCO-WESTFIELD

Paris, Amsterdam, September 13, 2018
Press release

GRESB ranked Unibail-Rodamco-Westfield #1 among all listed retail companies worldwide

Unibail-Rodamco-Westfield was ranked Sector Leader by GRESB in the Retail/Global/Listed category¹ among all listed retail companies worldwide. The Group was also ranked number one among all European listed companies, and all European retail companies, with a score of 93/100.

Additionally, the Group was awarded the Green Star for the 8th year in a row. The Green Star is awarded to entities with scores higher than 50 on both Management & Policy and Implementation & Measurement dimensions.

GRESB is the global environmental, social and governance (ESG) benchmark for real assets. Working in collaboration with the industry, GRESB defines the standard for sustainability performance in real assets, providing standardised and validated ESG data to more than 75 institutional investors, representing over USD 18 trillion in institutional capital.

"We are very proud of this recognition as part of our ambitious Better Places 2030 strategy. Our teams work relentlessly to improve our performance and meet the high-reaching targets we set for ourselves to have a positive impact on climate change", said Astrid Panosyan, Group Chief Resources Officer.

"The Sector Leaders have set the bar even higher for sustainability performance in 2018, while at the same time paving the way for the entire sector to follow", declared Sander Paul van Tongeren, Managing Director at GRESB.

In 2016, the Group took up a long-term challenge with its *Better Places 2030* strategy, which sets out ambitious and tangible objectives to be achieved by 2030. This roadmap is structured around one main target: to reduce the Group's carbon footprint by 50% in 2030 (vs 2015). In doing so, Unibail-Rodamco-Westfield was the first listed real estate company to incorporate CSR into the entire value chain and address the wide scope of indirect carbon emissions resulting from construction works, transportation, and energy consumption by tenants.
